September 7th, 2016

Dear Parents,

This letter is to inform you that all classrooms are peanut and nut free. Some students have severe peanut and nut allergies. Strict avoidance of peanuts, nuts, and nut products is the only way to prevent a life-threatening allergic reaction. We are asking for your assistance in providing the students with a safe learning environment.

**Please DO NOT send any peanut or nut containing products for your child to eat for snack in the classroom. It is ok to send it in for them to eat in the cafeteria.**

Any exposure to peanuts or nuts through contact or ingestion can cause a severe life-threatening reaction to those who are allergic to them. If your child has eaten peanuts or nuts prior to coming to school, please be sure your child's hands have been thoroughly washed prior to entering the school.

Please contact me if you have any questions. I am happy to provide you with additional information on food allergies.

Thank you for your assistance in this matter. Best wishes for a happy and healthy school year.

Sincerely,

Pat Snyder, RN, BSN  
School Nurse
